To all FEMA members

March 30, 2022

Sanctions on the FEMA member association of the Russian Federation and Belarus

Dear FEMA members

The FEMA Board adapts the International Olympic Committee (IOC) recommendation, that International Sports Federations and sports event organizers do not invite or allow the participation of Russian and Belarusian athletes and officials in international competitions. At the end of February 2022, many IOC member and non-member organizations have followed this recommendation.

The following actions are applied with immediate effect and until further notice:

- No FEMA sanctioned international events to take place in Russia and/or Belarus;
- No competitors from the Russian and/or Belarusian Member association are allowed to enroll in FEMA sanctioned events.

Sincerely

Michael Schmutz
FEMA President
